To our valued Customers:

New Item Numbers and Price Changes

Effective June 1, 2017, PDG is consolidating and standardizing its global item numbering systems. As a result, PDG's item numbers for chairs and on-chair accessories will change. At the link below we provide a complete list of all new item numbers. Please email ItemNumbers@pdgmobility.com if you require a customized list.

We have used this opportunity to review our Manufacturer's Suggested Retail Prices, and we are pleased to announce that going forward most customers will see lower overall acquisition costs for PDG wheelchairs and on-chair accessories.

Highlights of the price changes:

- ✓ **No charge for Transit Tie-Down Systems** for our Bentley, Fuze series, and Stellar series chairs
- ✓ **Lower base price for the Ultra Lightweight Elevation chair**
- ✓ **Lower base price for the extra-wide Eclipse chair** with Seat Widths of up to 48"
- ✓ **Lower price for 20" and 21" Seat Width options** for Fuze series chairs
- ✓ **Lower price for many popular accessories**, such as Anti-Tippers, Armrests, AA Pushbar Handle, Reclining Back, Backrest Extension, AA Footplates, Solid Seatpan, and more
- ✓ Minor price increase for some accessories, such as Dynamic Rocker Back or Wide Armpads

Download a complete list of our item numbers with the new pricing at:

<http://www.pdgmobility.com/2017-Item-List-Canada.html>.

Replacement (off-chair) part numbers and pricing are not affected by this change.

In the coming weeks, PDG will also launch easy-to-use and mobile-device-friendly online order forms. Please visit our website for future updates and further information.

We trust that these changes will enhance the value of our products as well as your confidence in PDG. We really appreciate your continued business.

Your PDG Team
